

ABHIRUP DAS

Data Analyst — Business Intelligence — Power BI · SQL · Python · Microsoft Azure

Email: abhirupdas99official@gmail.com | Phone: +1 647-535-0832 | Toronto, Ontario, Canada

LinkedIn: linkedin.com/in/abhirup-das-774052189 | GitHub: github.com/abhirupdas99

Professional Summary

- Data Analyst with overall 5 years of enterprise experience at Accenture, **delivering decision-grade analytics** using **Power BI, SQL, and Python** for Tier-1 financial and retail organizations across Canada and India.
- Skilled in the full data workflow—designing **ETL pipelines**, building data models with strong **data governance** standards, and translating results into Power BI dashboards and **KPI** reports that non-technical stakeholders can act on; hands-on experience with **Microsoft Azure, Azure Databricks, and Apache Spark** across large-scale datasets.
- Recent Master of Applied Computing graduate from the University of Windsor (Dec 2025). **Legally authorized to work anywhere in Canada without sponsorship.** Available for full-time Data Analyst roles immediately.

SKILLS

- **Analytics & Visualization:** Power BI, Tableau, Exploratory Data Analysis to create interactive dashboards.
- **Databases & Big Data Platforms:** PostgreSQL, MySQL, MongoDB, Azure Databricks, Apache Spark
- **Data Engineering & ETL:** Proficient in ETL pipelines, query optimization, and data integration
- **Tools & Methodologies:** Hands-on experience with Microsoft Excel, Jira, and Agile SDLC practices
- **Programming Languages:** Python, SQL, R for data manipulation, statistical analysis, automation workflows.

WORK EXPERIENCE

Business Intelligence Intern

09/2025 – Present

Storefront Stays Ltd — Internship (Remote)

Windsor, ON, CA

- Built KPI tracking models in Excel to monitor **20+ performance indicators** and reduced reporting time by 25%
- Mapped end-to-end manufacturing and quality control flows in Lucidchart, and modelled data flows to surface bottlenecks and handoff risks, resulting in clearer controls and standard work
- Built **Power BI dashboards across 15+ countries** to support weekly reviews, resulting in same-day visibility on export orders and delays

Data Analyst Intern

10/2024 – 08/2025

Windsor Analytics Ltd

Windsor, ON, CA

- Designed star-schema data models **enabling scalable KPI reporting** across operations, **reducing dashboard latency by 40%** and improving data accessibility
- Developed **SQL-driven contract renewal tracking** with early-warning signals on at-risk accounts, contributing to a 10% improvement in renewal outcomes over the engagement period.
- Partnered with Engineering teams to align event schemas and metric definitions, establishing a single source of truth across analytics assets
- Improved data reliability by introducing validation checks and reconciliation logic, **reducing reporting defects by 22%**
- Applied regression, hypothesis testing, and time-series forecasting in Python to production scheduling data, uncovering a shift allocation inefficiency that had gone unnoticed—**the fix resulted in 20% throughput improvement**, with findings presented directly to operations leadership.

Data Analyst

06/2023 – 08/2024

Accenture Solutions Pvt Ltd

India

- Designed and delivered dashboard development solutions in Power BI with SQL-based data modelling, improving stakeholder reporting efficiency 15% across marketing operations.
- Integrated SQL queries with interactive Power BI visuals, enhancing contract renewal tracking and boosting customer retention outcomes 10% across operational datasets.
- Delivered biweekly Tableau evaluation reports analyzing path recency, asset relevancy, accuracy metrics, assisting data scientists, guiding iterative model deployment improvements.
- Led statistical analyses including regression, hypothesis testing, forecasting with Python libraries, improving production efficiency by 20% and streamlining operational workflows.

Junior Software Engineer

07/2021 – 05/2023

Accenture Solutions Pvt Ltd

India

- Constructed reactive web front-end using Node.js, JavaScript, HTML, Tailwind CSS, ensuring real-time visualization accuracy across 10+ operational dashboards.
- Analyzed JIRA user stories, implemented secure code, optimized testing scripts, maintained 80% code coverage, improving software reliability and deployment accuracy.
- Built production ETL pipeline processing 90,000 financial transactions weekly; applied data analysis to flag quality issues and ensure KPI accuracy, saving 20 hrs/month
- Conducted extensive data cleaning, preprocessing, modeling, and visualization, generating actionable reports guiding technical project decisions and improvements.

PROJECT EXPERIENCE

Personal Financial Analysis using Power BI
Developer, Ontario

09/2024 – 07/2025

- Implemented interactive Power BI dashboard using twelve months bank statement data, visualizing income, expenses, and savings trends efficiently.
- Tracked monthly income, expenditure, and savings patterns, enabling strategic financial planning and resource allocation for precise budget optimization.

World Layoffs Data Cleaning Project with MySQL
Sole Contributor, Ontario

01/2023 – 08/2023

- Cleaned global layoffs dataset (2020–2023), ensuring accurate analysis of workforce reduction across companies, industries, and countries systematically.
- Interpreted staging tables preserving raw datasets, enabling repeatable and reliable data cleaning workflows, improving overall data integrity and accuracy.

Credit Risk Prediction and Explainability Platform
Sole Contributor, Ontario

05/2025 – 08/2025

- Formulated end-to-end machine learning pipeline predicting individual credit default risk, leveraging XGBoost, LightGBM, and SHAP for explainability transparency.
- Evaluated predictive model performance using ROC-AUC, F1-score, and accuracy metrics, optimizing model selection and ensuring robust predictive capability.

EDUCATION

Master of Applied Computing
University of Windsor, Ontario

09/2024 – 12/2025

Bachelor of Technology (B.Tech)
Narula Institute of Technology, India

08/2017 – 06/2021

Courses & Training

- **Azure Spark Databricks Essential Training** – LinkedIn Learning,
- **Learning Hadoop & Learning MongoDB** – LinkedIn Learning
- **Power BI Essential Training** – LinkedIn Learning
